Dear Mark Reynolds,

We moved here from Hyattstown in 1967, have not moved since coming here, and at this one place have had 4-5 different addresses. This is because the area has grown that much.

We have not been on Route 8 for more than a decade and a half. The route number is now 12. We have the street address on the name stamp now, too.

I have not published any additional books. Frame-Up is what survived of what was originally conceived as Coup d'Etat.

I am working on another book now but I cannot make copies available ar my age and with my impaired health. Too much for me. I hope it can be published commercially.

Otherwise I have nothing save the files I'll leave in an archive.

I've never drawn a biblio together and will nto start now!

I do not mean that I do not appreciate this.

It is just that I've never thought that way.

Thanks and best wishes,

Harold Weisberg
